4.	TOR Item No 5-I under Baseline Survey	The sample size to be considered would be 10% of projects implemented in the states in the batches under consideration. As far as practicable, the sample should be different from the samples considered by the state ME&L agencies and should be representative of all the batches of the projects sanctioned by SLNAs. A synthesized report of all States with agro-climatic region wise analysis would be prepared by the national level agencies.	The sample size to be considered would be 10% of projects implemented in the states in the batches under consideration. As far as practicable, the sample should be different from the samples considered by the state ME&L agencies and should be representative of all the batches of the projects sanctioned by SLNAs. Selected project shall be comprehensively monitored. A synthesized report of all States with agro-climatic region wise analysis would be prepared by the national level agencies.
